SECTION I: SUMMARY AND MISSION STATEMENT

Summary and Mission Statement

Anna Jaques Hospital (AJH) is a member of Beth Israel Lahey Health (BILH). BILH brings together an exceptional array of clinical organizations spanning the full continuum of health care delivery – academic and teaching hospitals, community hospitals, ambulatory and urgent care centers, behavioral health programs, and home care – in a shared mission to expand access to great care and advance the science and practice of medicine through groundbreaking research and education.

At the heart of BILH is the belief that everyone deserves high-quality, affordable health care. This belief is what drives BILH to work with community partners across the region to promote health, expand access, and deliver the best care in the communities BILH serves. BILH Community Benefits staff are committed to working collaboratively with BILH’s communities to address leading health issues and create a healthy future for individuals, families, and communities.

The mission of Anna Jaques Hospital is to provide high-quality, compassionate medical care in partnership with its medical staff to improve the health of its communities. Established in 1884 through the vision and charity of Miss Anna Jaques, the hospital stands as a testament to one woman and her physician’s commitment to the community and its needs. AJH proudly continues that tradition today by actively serving its community – by addressing the most pressing health needs, supporting the underserved in the hospital’s service area, and addressing disparities in access to care and health outcomes.

The following annual report provides specific details on how AJH is honoring its commitment and striving to create a healthy future for its community. The report includes information on its Community Benefits Service Area (CBSA), community health priorities, target populations, and community partners, and detailed descriptions of its Community Benefits programs and their impact.

More broadly, AJH’s Community Benefits mission is fulfilled by:

- **Involving AJH’s staff**, including its leadership and dozens of community partners in the community health assessment process as well as in the development, implementation, and oversight of the hospital’s three-year Implementation Strategy;
- **Engaging and learning from residents** throughout AJH’s service area in all aspects of the Community Benefits process, including assessment, planning, implementation, and evaluation. The hospital pays special attention to engaging those community members who are not patients of AJH and those who are often left out of assessment, planning, and program implementation processes;

- **Assessing unmet community need** by collecting primary and secondary data (both quantitative and qualitative) to identify unmet health-related needs and to characterize those in the community who are most vulnerable and face disparities in access and outcomes;
- **Implementing community health programs and services** in AJH's CBSA that is geared toward improving the current and future health status of individuals, families, and communities by removing barriers to care, addressing social determinants of health, strengthening the healthcare system, and working to decrease the burden of leading health issues;
- **Promoting health equity** by addressing social and institutional inequities, racism, and bigotry and ensuring that all patients are welcomed and received with respect and have access to culturally responsiveness care; and
- **Facilitating collaboration and partnership** within and across sectors (e.g., public health, health care, social services, business, academic, and community health) to advocate for, support, and implement effective health policies, community programs, and services.

Target Populations

Anna Jaques Hospital is committed to improving the health status and well-being of those living throughout its entire CBSA, which includes:

- Amesbury (17,532)
- Georgetown (8,688)
- Groveland (6,697)
- Haverhill (64,190)
- Merrimac (6,913)
- Newbury (7,079)
- Newburyport (18,481)
- Salisbury (5,131)
- Rowley (1,416)
- West Newbury (4,545)

Per the Commonwealth's updated Community Benefits guidelines, AJH's Implementation Strategy (IS) will focus on populations that are most at risk. The Community Health Needs Assessment (CHNA) showed that although all geographic, demographic, and socioeconomic segments of the population face challenges that can hinder the ability to access care or maintain good health, the populations listed below were identified as facing the greatest health disparities and being the most at risk.

- Youth and Adolescents
- Older Adults

- Individuals with Chronic/Complex Conditions

Basis for Selection

- Community health needs assessments
- Available public health data
- Private resources (foundations, advocacy groups)
- Insight and data from Anna Jaques Hospital

Key Accomplishments for Reporting Year

The accomplishments highlighted in this report are based upon priorities identified and programs contained in AJH's FY19 Community Health Needs Assessment (CHNA) and FY20-22 Implementation Strategy (IS):

- AJH strengthened its partnership with Emmaus through "Mitch's Place Emergency Shelter" that serves adults impacted by homelessness in the Greater Haverhill area and experienced a significant increase in need during the pandemic. AJH supported unexpected financial burdens to ensure that state safety measures related to COVID-19 were in place to keep patrons safe during the pandemic.
- The COVID-19 pandemic placed a heavy burden on immunocompromised patients, including those impacted by cancer. AJH's shifted its annual support of the YMCA Haverhill to its Cornerstone program, a collaborative health & wellness program providing essential daily living support to cancer patients, cancer survivors, and their immediate families.
- AJH formalized a new partnership with Essex County Outreach to directly support its efforts of community educational and awareness around substance use disorder, mental/behavioral health to access to necessary services related to substance use, mental or behavioral health needs and access.
- With the increasing need of housing support impact its community, AJH established partnerships with the YWCA of Greater Newburyport and Link House, Inc., to support temporary and long-term housing.

Plans for Next Reporting Year

In FY19, Anna Jaques Hospital conducted a comprehensive and inclusive Community Health Needs Assessment (CHNA) that included qualitative and quantitative data collection, robust community engagement activities, and an inclusive prioritization process. These activities were in full compliance with the Commonwealth's updated Community Benefits Guidelines for FY19. In response to the FY19 CHNA, AJH will focus its FY20-22 Implementation Strategy on four priority areas; these priority areas collectively address the broad range of

health and social issues facing residents living in AJH's CBSA who face the greatest health disparities. These four priority areas are:

- 1) **Social Determinants of Health (Housing, Food Access, Support for Vulnerable Communities):** In the past decade, evidence has made it increasingly clear that the utilization of medical services is not the primary determinant of community health. Rather, the social conditions in which people are born, grow, live, work, and age play a key role in determining health outcomes and health disparities. According to data compiled by the Greater Boston Food Bank and Feeding America, there are approximately 6,000 people who are food insecure – people who are worrying about running out of food or actually going without – living in northeastern Essex County.
- 2) **Chronic Disease Management and Prevention (Cancer):** The CHNA findings revealed a need to address the many risk factors associated with chronic and complex health conditions, with a focus on cancer.
- 3) **Behavioral Health (Mental Health and Substance Use):** A key finding was the continued impact that substance use has on the community, including the use of e-cigarettes/vaping and alcohol by youth and the opioid epidemic, which continues to impact individuals, families, and communities, including youth and pregnant women.
- 4) **Access to Care:** Ensure access to preventive measures, testing, screening, and treatment for those at risk for or exposed to COVID-19 and mitigate the impacts of the pandemic on the social determinants of health.

These priority areas are aligned with the statewide health priorities identified by the Executive Office of Health and Human Services (EOHHS) in 2017 (i.e., Chronic Disease, Housing Stability/Homelessness, Mental Illness and Mental Health, and Substance Use Disorders). Anna Jaques Hospital's priorities are also aligned with the priorities identified by the Massachusetts Department of Public Health (DPH) to guide the Community-based Health Initiative (CHI) investments funded by the Determination of Need (DoN) process, which underscore the importance of investing in the social determinants of health (i.e., built environment, social environment, housing, violence, education, and employment).

The FY19 CHNA provided new guidance and invaluable insights on quantitative trends and community perceptions that are being used to inform and refine Anna Jaques Hospital's efforts. In completing the FY19 CHNA and FY20-22 Implementation Strategy, Anna Jaques Hospital, along with its other health, public health, social service, and community partners, is committed to improving the health status and well-being of all residents living throughout its CBSA. As discussed above, based on the CHNA's quantitative and qualitative findings, including discussions with a broad range of community participants, there was agreement that Anna Jaques Hospital's FY20-22 Implementation Strategy should prioritize certain demographic, socioeconomic, and geographic population segments that have complex needs and face barriers to care and a service gap as well as other adverse social determinants of health. These factors put these segments at greater risk, limit their access to needed services, and can often lead to disparities in health outcomes. More specifically, the FY19 CHNA

identified the importance of supporting initiatives that targeted low-income populations, youth, older adults, racially/ethnically diverse populations, limited-English-proficiency populations, and LGBTQ populations.

Anna Jaques Hospital partners with dozens of community-based organizations and service providers to execute its Implementation Strategy, including public agencies, social service providers, community health organizations, academic organizations, and businesses.

Hospital Self-Assessment Form

Working with its Community Benefits leadership team and its Community Benefits Advisory Committee (CBAC), the AJH Community Benefits team completed a hospital self-assessment form (Section VII, page 37). The Anna Jaques Hospital Community Benefits team also shared the Community Representative Feedback Form with many CBAC members and community stakeholders who participated in AJH's CHNA.

SECTION II: COMMUNITY BENEFITS PROCESS

Community Benefits Leadership/Team and Community Benefits Advisory Committee (CBAC)

The membership of AJH's Community Benefits Advisory Committee (CBAC) aspires to be representative of the constituencies and priority populations served by AJH's programmatic endeavors, including those from diverse racial and ethnic backgrounds, age, gender, sexual orientation and gender identity, as well as those from corporate and non-profit community organizations. Senior management is actively engaged in the development and implementation of the Community Benefits plan, ensuring that hospital policies and resources are allocated to support planned activities.

It is not only the Board members and senior leadership who are held accountable for fulfilling AJH's Community Benefits mission. Among AJH's core values is the recognition that the most successful Community Benefits programs are implemented organization wide and integrated into the very fabric of the hospital's culture, policies, and procedures. A commitment to Community Benefits is a focus and value manifested throughout AJH's structure and reflected in how it provides care at the hospital and in affiliated practices.

AJH is a member of BILH. While AJH oversees local Community Benefits programming and community engagement efforts, Community Benefits is under the purview of the BILH Chief Strategy Officer. This structure ensures that Community Benefits efforts, prioritization, planning, and strategy align and are integrated with local and system strategic and regulatory priorities.

The AJH Community Benefits program is spearheaded by a Community Benefits Manager. The Community Benefits Manager has direct access and is accountable to the AJH President and the BILH Vice President of Community Benefits and Community Relations, the latter of whom reports directly to the BILH Chief, Diversity, Equity and Inclusion. It is the responsibility of these leaders to ensure that Community Benefits is addressed by the entire organization and that the needs of underserved populations are considered every day in discussions on resource allocation, policies, and program development.

This is the structure and methodology employed to ensure that Community Benefits is not the purview of one office alone and to maximize efforts across the organization to fulfill the mission and goals of Community Benefits.

Community Benefits Advisory Committee

Michelle Braiser, Practice Manager, Beth Israel Lahey Primary Care – Haverhill

Andrea (Andi) Egmont, City of Newburyport, Newburyport Youth Services/The BEACON Coalition, Director

Ilene Harnch-Grady, YWCA of Newburyport, Encore Program Leader

Tina Los, Essex County Asset Builder Network, Project Coordinator

Lou Masiello, Merrimack Valley Planning Commissioner for Salisbury

Tiffany Nigro, Executive Director, The Pettengill House

Pam Palombo, RN, City of Newburyport, Newburyport Public Health Nurse and Nourishing the Northshore

Officer Dani Sinclair, Newburyport Police, Inspector

Jean Trim, Managing Director & Portfolio Manager, Vigilant Capital Management, LLC; AJH Board of Trustee Member

Shari Wilkinson, The Newburyport Farmers Market, Market Coordinator

Hospital Representation

Kelley Sullivan, Manager of Community Benefits & Community Relations

Danielle Perry, Vice President of Business Development & Marketing, AJH Senior Leadership Representative

Christine Healey, Director of Community Benefits, North Region, Beth Israel Lahey Health Representative

Community Benefits Committee Meetings

- December 10, 2020
- March 11, 2021
- June 10, 2021
- September 9, 2021 (Public Meeting)

Community Partners

Anna Jaques Hospital (AJH) recognizes its role in serving its community, but that in order to be successful it needs to collaborate with its community partners and those it serves. AJH's Community Health Needs Assessment (CHNA) and the associated Implementation Strategy were completed in close collaboration with AJH's staff, its health and social service partners, and the community at-large. AJH's Community Benefits program exemplifies the spirit of collaboration that is such a vital part of its mission.

AJH serves and collaborates with all segments of the population. However, in recognition needing to make the most impact in communities most in need, AJH focuses its Community Benefits efforts on improving the health status of the low-income, underserved populations living in: Amesbury, Georgetown, Groveland, Haverhill, Merrimac, Newbury, Newburyport, Salisbury, Rowley, and West Newbury. This decision was to select the communities with regional resources that best serve and address health needs.

AJH relies heavily on its community partners to implement its Community Benefits initiatives. AJH has leveraged its community partners' expertise and the vital connections that these organizations have with the residents and other community-based organizations that operate in the communities they serve. Simply, AJH supports and partners with community programs who specialize in addressing certain health needs – beyond the care that AJH provides in the hospital.

AJH's Board of Trustees along with its clinical and administrative staff is committed to improving the health and well-being of residents throughout its service area and beyond. Providing the highest clinical expertise, education and research along with an underlying commitment to health equity are the primary tenets of its mission. AJH's Community Benefits Department, under the direct oversight of AJH's Board of Trustees, is dedicated to collaborating with community partners and residents and will continue to do so in order to meet its Community Benefits obligations.

The following is a comprehensive listing of the community partners with which AJH joins in assessing community need as well as planning, implementing, and overseeing its Community Benefits Implementation Strategy. The level of engagement of a select group of community partners can be found in the Hospital Self-Assessment (Section VII, page 37).

Community Partners

- American Cancer Society
- Amesbury Chamber of Commerce
- The Arc of Greater Haverhill-Newburyport
- The BEACON Coalition
- Boys & Girls Club
- Coastal Trails Coalition
- Community Action, Inc./Women, Infants & Children (WIC)
- Councils on Aging (Amesbury, Newburyport, Merrimac, Salisbury, Haverhill)
- Elder Services of the Merrimack Valley/Home Health VNA
- Emmaus, Inc.
- Essex County Asset Builder Network
- Essex County Outreach
- Family Services of the Merrimack Valley
- Girls, Inc.
- Greater Haverhill Chamber of Commerce
- Greater Lawrence Family Health Center – Haverhill Office
- Greater Newburyport Chamber of Commerce
- Greater Newburyport Ovarian Cancer Awareness – Ovarions for the Cure
- Haverhill Farmers Market/Creative Haverhill
- Home Health VNA/Merrimack Valley Hospice
- Jeanne Geiger Crisis Center
- Link House, Inc.
- Lucy's Love Bus
- Lions Clubs (Amesbury, Haverhill, Newburyport)
- Merrimac Senior Center & Council on Aging
- Merrimack Valley Black & Brown Voices
- Merrimack Valley Planning Commission
- New England Elder Transportation
- Newbury Food Pantry
- Newburyport DEI Alliance
- Newburyport Farmers' Market
- Newburyport Public Schools
- Newburyport Yankee Homecoming
- Newburyport Youth Services
- Newburyport Society for the Relief of Aged Women
- North of Boston Cancer Resource
- Nourishing the Northshore
- Opportunity Works
- Our Neighbors' Table
- Partnership of Amesbury Community & Teens (PACT)

- Pennies for Poverty
- Pentucket Perinatal Mental Health Coalition
- The Pettengill House
- Regional Social Services Collaborative
- Rotary Clubs (Amesbury, Haverhill, Newburyport)
- Salisbury Parks & Recreation Department
- Salvation Army
- Tough Warrior Princesses
- Veterans' Services
- YMCA of Northshore/Haverhill
- YWCA of Greater Haverhill
- YWCA of Newburyport

SECTION III: COMMUNITY HEALTH NEEDS ASSESSMENT

The FY19 Community Health Needs Assessment (CHNA) and the associated FY20-22 Implementation Strategy were developed over a ten-month period from October 2018 to August 2019. These community health assessment, planning, and implementation efforts fulfill the Commonwealth of Massachusetts Attorney General's Office and Federal Internal Revenue Service's (IRS) requirements. More specifically, these activities fulfill Anna Jaques Hospital's need to conduct a community health needs assessment, engage the community, identify priority health issues, inventory community assets, assess impact, and develop an Implementation Strategy. However, these activities are driven primarily by Anna Jaques Hospital's dedication to its mission, its covenant to the underserved, and its commitment to community health improvement.

As mentioned above, Anna Jaques Hospital's most recent CHNA was completed during FY19. FY20 Community Benefits programming was informed by the FY19 CHNA and aligns with AJH's FY20-22 Implementation Strategy. The following is a summary description of the FY19 CHNA approach, methods, and key findings.

Approach and Methods

The FY19 CHNA was conducted in three phases, which allowed AJH to:

- 1) Compile an extensive amount of quantitative and qualitative data;
- 2) Engage and involve key stakeholders, AJH clinical and administrative staff, and the community at-large;
- 3) Develop a report and detailed strategic plan; and

- 4) Comply with all Commonwealth Attorney General and Federal IRS community benefits requirements.

AJH's Community Benefits program is predicated on the notion of partnership and dialogue with its many communities. AJH's understanding of these communities' needs is derived from discussions with and observations by health care and health-related workers in the neighborhoods as well as more formal assessments through available public health data, focus groups, surveys, etc. This data was then augmented by demographic and health status information gleaned from a variety of sources, including The Massachusetts DPH, The Boston Public Health Commission, and federal resources such as the Institute of Medicine and Centers for Disease Control and Prevention, and from a review of literature relevant to a particular community's needs.

Primary data for the CHNA is derived from shared resources and available data from community partnerships and organizations. Members of the CBAC collaborated with the Community Benefits Manager, through meetings and conversations between 2018 and 2019, to connect AJH with useful resources and reports, both from members' own organizations as well as publicly reported data, that reflect the significant health needs facing communities served by AJH.

The members of the CBAC represent the interests of AJH's most vulnerable populations, including low-income, minority, homeless, and other underserved or high-risk populations. Additionally, Pam Palombo, a member of the CBAC, serves as Newburyport Public Health Nurse, and provided insight and suggestions to the CBAC regarding the health needs of that community.

Demographic data was collected using publicly available data from the U.S. Census Bureau, health indicators from the Massachusetts Department of Public Health, and the Centers for Disease Control and Prevention (CDC). Health indicator data such as mortality, incidence, prevalence, and hospitalization rates were provided by the Massachusetts DPH, and by use of other state, regional, and national information sources on cancer incidence and opioid use trends.

After a comprehensive review of all the quantitative and qualitative information collected in the Anna Jaques Hospital CHNA, the key health-related findings identified were the following:

- In January 2019, the CBAC determined that after three years of focusing on obesity, cancer, and substance use as its significant health priorities, the data and available resources consulted reflected positive changes for obesity but that cancer and substance use should remain the program's core focus.
- The CBAC voted, in order to address the most pressing health needs in our community and incorporate statewide goals/social determinants of health in the most impactful and realistic way, to prioritize cancer and substance use (noting connection with mental health) as the most significant health needs facing its community for FY19-FY21.

While obesity is not a primary focus, the World Cancer Research Fund estimates that about 20% of all cancers diagnosed in the U.S. are related to body fatness, physical inactivity, excess alcohol consumption, and/or poor nutrition. Thus, access to healthy foods as well as opportunities for exercise will help us address factors impacting both cancer and substance use.

Summary of FY19 CHNA Key Health-Related Findings

Chronic Disease:

- Across nearly all categories reported – including incidence of diabetes, heart disease, high blood pressure, high cholesterol, asthma, disability, and arthritis – the Greater Haverhill community is comparable to or better than the state average. Only adult asthma shows a slightly higher incidence rate than the state average.
- In Massachusetts, deaths due to all cancers are slightly higher than the state average. Lung cancer deaths are higher than the state average overall, and significantly higher in Merrimac, Salisbury, Haverhill, and Amesbury.

Mental Health and Substance Use:

- Behavioral Health issues (i.e., substance use and mental health) are having a negative effect on individuals, families, and communities in every geographic region and every population segment in AJH's CBSA.
- Depression, anxiety, suicide, opioid and prescription drug dependency, and alcohol and marijuana use, particularly in youth, are major health issues and are having a tremendous impact on the population as well as adding a burden on the service system. The fact that physical and behavioral health are so intertwined compounds the impact of these issues. Of particular concern are the increasing rates of opioid abuse in the Commonwealth.

Social Determinants of Health:

- Social Determinants of Health** (e.g., economic stability, education, and community/social context) continue to have a tremendous impact on many segments of the population, particularly following the impact of the COVID-19 pandemic. Jeanne Geiger Crisis Center has reported that emerging data shows that since the outbreak of COVID-19, violence against women and girls, and in particular domestic violence, has intensified. Our Neighbors' Table experienced an 89% increase in people they serve each week during the pandemic, with the greatest among them being families with children, and men and women in recovery.
- **Food Insecurity:** There are approximately 6,000 people who are food insecure living in northeastern Essex County. More than 2,500 of those people live in Amesbury and Newburyport combined, but there are children, adults, and seniors struggling with hunger in every one of AJH's CBSA.

Goal Status	AJH offered this collaborative care model in three locations in FY21: Amesbury (2) and Haverhill (1), and served a total of 797 patients.	
Program Year: Year 3	Of X Years: Year 3	Goal Type: Process Goal

Priority Health Need: Behavioral Health Program Name: Essex County Outreach Health Issue: Mental Health/Mental Illness; Substance Use	
Brief Description or Objective	<p>The Essex County Outreach is a collaborative effort involving all 34 police departments within Essex County, as well as the sheriff's department, partnering with social service agencies, peer specialists, and other community supports to assist with:</p> <ul style="list-style-type: none"> • Substance Use Disorder (SUD) • Mental or Behavioral Health needs • High risk (of overdosing) referrals • Harm Reduction Strategies • Additional supports to families and children impacted by SUD • Supports for those that have lost a loved one to SUD
Program Type	<input type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Infrastructure to Support <input checked="" type="checkbox"/> Total Population or Community Wide Community Benefits Intervention
Program Goal(s)	Increase community awareness, education, programming and resources to support substance use, mental health or behavioral health needs and access.
Goal Status	<p>ECO attended 14 community events to provide resources and education:</p> <p>June 26: Haverhill Leaving the Streets Ministry July 13: Salisbury, Concert Series July 23: Essex County Sheriff's Dept. Program Year: Year 1	Of X Years: Year 2	Goal Type: Process Goal
-----------------------------	---------------------------	--------------------------------

Priority Health Need: Behavioral Health Program Name: Family Services of the Merrimack Valley Samaritans Program Health Issue: Mental Health/Mental Illness; Substance Use		
Brief Description or Objective	The Samaritans of Merrimack Valley aims to reduce the incidence of suicide in northeastern Massachusetts by providing a host of prevention and after-care services including community outreach, trainings, survivor support, and a 24-hour crisis hotline.	
Program Type	<input type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Community Clinical Linkages <input checked="" type="checkbox"/> Total Population or Community Wide Intervention <input type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Infrastructure to Support Community Benefits	
Program Goal(s)	Reduce incidence of suicide and increase community awareness, education, programming and resources to support substance use, mental health or behavioral health needs and access.	
Goal Status	<ul style="list-style-type: none"> • Recruited and trained 14 new crisis-line volunteers who helped answer 14,500+ calls. • Provided three 8-week series of the suicide attempt survivor support group. • Completed 24 hours of “Gatekeeper” training with 240 gatekeepers of middle-aged persons, primarily to mental health professionals, and well as people who work with older adults. • Conducted 14 outreach training sessions to community groups and schools that reached over 260 people. • Organized 40 Safe Place Support groups for suicide loss survivors. • Conducted two loss survivor in-home visits with 8 people. • Became a crisis call center for the National Suicide Prevention Lifeline, which has increased the number of calls to the program 	
Program Year: Year 2	Of X Years: Year 3	Goal Type: Process Goal

Priority Health Need: Behavioral Health	
Program Name: Girls Inc.	
Health Issue: Mental Health/Mental Illness; Substance Use	
Brief Description or Objective	Girls Inc. of the Seacoast Area is an affiliate of Girls Incorporated®, a national research, education, and direct advocacy organization that inspires girls to be strong, smart, and bold. The program offers research-based curriculums including STEAM (science, technology, engineering, art, and math); media literacy; economic literacy; growing up strong, smart, and bold (friendships and conflict resolution); and healthy living/self-care. Programs are offered during the academic school year, school vacations, and the summer.
Program Type	<input type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Infrastructure to Support Community Benefits <input checked="" type="checkbox"/> Total Population or Community Wide Intervention
Program Goal(s)	Increase access to programming and positive outlets to empower girls
Goal Status	In Fiscal Year 2021, Girls Inc. program provided services to 129 girls. Due to the restrictions of COVID-19, programs were provided in the community rather than in schools.
Program Year: Year 2	Of X Years: Year 2
Goal Type: Process Goal	

Priority Health Need: Behavioral Health	
Program Name: Jeanne Geiger Crisis Center Survivor Services	
Health Issue: Mental Health/Mental Illness; Substance Use	
Brief Description or Objective	<p>Jeanne Geiger Crisis Center’s community-based services provide an integrated web of support as survivors needs shift from crisis to independence. The Center coordinates with social service agencies, schools, hospitals, law enforcement, and other community partners to provide support for the survivors and their families as their needs change over time.</p> <p>The Center's primary goal to provide domestic violence survivors with the holistic services and support they need to stabilize their lives and heal from the long-term effects of trauma was achieved, despite the unprecedented circumstances brought on by Covid-19. In FY21 the Center supported 967 adult and child survivors of domestic violence with 16,678 services. This year required flexibility, resilience, and innovation. The program staff utilized their collective, expansive expertise to provide survivor-driven work. Staff collaborated with community partners to ensure a coordinated response for survivors and pivoted their approach in response to the constant changes in how systems operated due to Covid-19.</p>

Program Type	<input type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Community Clinical Linkages <input checked="" type="checkbox"/> Total Population or Community Wide Intervention <input type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Infrastructure to Support Community Benefits	
Program Goal(s)	Decrease the rates of domestic violence incidents by supporting resources and a wide range of advocacy services and supports to adult and child survivors	
Goal Status	<ol style="list-style-type: none"> 1. 767 adult survivors of domestic violence received advocacy services in FY21. 2. 375 adult and child survivors of domestic violence received therapeutic services in FY21 3. 265 adult survivors of domestic violence received legal services in FY21 <p>*Note- if you add up the survivors served in each program it is greater than the number of survivors served because many survivors access services in more than one program.</p>	
Program Year: Year 2	Of X Years: Year 2	Goal Type: Process Goal

Priority Health Need: Behavioral Health Program Name: Patient Care Navigator at Anna Jaques Hospital Health Issue: Mental Health/Mental Illness; Substance Use	
Brief Description or Objective	The Patient Care Navigator at AJH supports women with Substance Use Disorder (SUD) and/or Neonatal Abstinence Syndrome (NAS), a condition that impacts about 14.5 cases per 1,000 births in Massachusetts. The Patient Care Navigator serves women in recovery and seeking additional support, who have suffered from trauma or abuse, or who have been diagnosed with mental health disorders. The Patient Care Navigator champions women throughout their pregnancy and into the first year of motherhood, working in collaboration with Women’s Health Care and the Anna Jaques Birth Center & Neonatal Care Center.
Program Type	<input checked="" type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Total Population or Community Wide Intervention <input type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Infrastructure to Support Community Benefits
Program Goal(s)	Support patient sobriety by setting individualized treatment goals such as securing mental health counseling, obtaining stable housing, discontinuing marijuana use, or following up with Early Intervention, or connecting with local resources, recovery support services, or mental health providers to help achieve their goals.

	<p>Inpatient Treatment:</p> <ul style="list-style-type: none"> - Detoxification: 12 - Medical Inpatient: 2 - Clinical Stabilization: 4 - Transitional Stabilization: 1 <p>Outpatient Treatment:</p> <ul style="list-style-type: none"> - Intensive Outpatient Program: 4 - Outpatient Counseling: 26 - Psychopharmacology: 7 <p>Medication Assisted Treatment: 15 Residential: 12</p> <p>Other medical or specialty care: Pain Management: 1 Section 12 or 35: 4</p> <p>3. Goal met and exceeded (details below):</p> <ul style="list-style-type: none"> - 53 individuals who received: - Comprehensive Case Management: 237 case management interventions - Recovery Coaching/Support: 125 interventions - Community Outreach and Wellness Visits: 42 interventions - Calls, Case Consultation and Referrals: 113 interventions - Harm Reduction Services and Psycho-education: 33 interventions <p>4. Goal met and exceeded (details below) Family Consults: 31 families received 102 consultation sessions</p>

Chronic Disease (Cancer)

- Breast Care Navigator
- Coastal Trails Coalition
- Haverhill Farmers' Market
- Newburyport Farmers' Market
- North of Boston Cancer Resource Virtual Offerings
- YMCA Cornerstone Program
- YWCA Encore Program

Priority Health Need: Chronic Disease Program Name: Breast Care Navigator Health Issue: Chronic Disease		
Brief Description or Objective	<p>The Breast Care Navigator at the Gerrish Breast Care Center is an RN with extensive oncology-specific clinical knowledge. The Navigator offers individualized support and assistance to patients and their caregivers to help them make informed decisions about their care and to overcome barriers to optimal care. The Navigator contributes to the Hospital’s mission by providing cancer patients with coordinated care through a holistic and collaborative approach that includes communication and coordination with the patient’s family and/or caregivers, along with a multidisciplinary team consisting of physicians, nurse practitioners, oncology nurses, and social workers. The Navigator works in collaboration with the clinical team to develop clinical pathways for appropriate care and acts as the contact clinical person in resolving all patient-related concerns. The Navigator ensures all medical information has been received by physicians, reviews all medical information prior to patient visit, and discusses any concerns with the provider prior to patient visit. In addition, the Navigator maintains contact with referring and other collaborating physicians, to keep them up to date on the patient’s care plan.</p>	
Program Type	<input checked="" type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Infrastructure to Support <input type="checkbox"/> Total Population or Community Wide Intervention Community Benefits	
Program Goal(s)	Increase supports and access to services to patients through cancer journey, from health care services through to survivorship programs.	
Goal Status	In FY21, the Breast Care Navigator provided support services and care coordination to over 275 women scheduled for image-guided breast biopsies and 133 Gerrish Breast Care Center (GBCC) patients and families undergoing breast surgery for both benign and malignant conditions.	
Program Year: Year 2	Of X Years: Year 3	Goal Type: Process Goal

	providing fresh, local produce and baked and prepared foods, as well as handcrafted goods. Hosted in downtown Haverhill and easily accessible by public transportation.

Program Goal(s)	Increase access to fresh produce and healthy food options	
Goal Status	Haverhill Farmers' Market hosted markets weekly from June through October 2021 (total of 19). The market served roughly 700-800 residents per week. Farmers markets are crucial in providing fresh local produce and healthy food options.	
Program Year: Year 2	Of X Years: Year 3	Goal Type: Process Goal

Priority Health Need: Chronic Disease Program Name: Newburyport Farmers' Market Health Issue: Chronic Disease		
Brief Description or Objective	AJH's support of the Newburyport Farmers' Market supports the Greater Newburyport community's access to healthy, affordable food choices - especially fruits and vegetables. Eating healthy can help reduce people's risk for heart disease, high blood pressure, diabetes, osteoporosis, and several types of cancer, as well as help them maintain a healthy body weight. AJH supports efforts and spread the word of EBT and Snap vouchers accepted at the Market for lower-income families.

Priority Health Need: Chronic Disease		
Program Name: North of Boston Cancer Resource Speaker Series		
Health Issue: Chronic Disease		
Brief Description or Objective	The North of Boston Cancer Resource Speaker Series is designed to educate and offer support to people affected by cancer. The sessions provide the opportunity for participants to learn about and experience healing practices that can help them ease the distress of a cancer diagnosis and treatment and enhance their well-being from diagnosis through treatment and beyond. This year, due to COVID-19, the sessions were offered via Zoom.	
Program Type	<input type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Infrastructure to Support <input checked="" type="checkbox"/> Total Population or Community Wide Intervention Community Benefits	
Program Goal(s)	Increase access to programs and resources to support people and families impacted by cancer	
Goal Status	<p>NBCR hosted 10 Speaker Series events for a total of 138 participants. Topics included:</p> <ul style="list-style-type: none"> • Heal Your Whole Self • Fighting Cancer in the Kitchen • Exercise: Your Secret Weapon During Cancer Treatment and Beyond! • Tips to Improve Your Balance • Spiritual Approaches to Illness • 3 Powerful Practices for Inner Peace <p>45 gift certificates were also distributed to be used for oncology massage, acupuncture, guided imagery, manual lymph drainage, reiki, health coaching or meals.</p>	
Program Year: Year 2	Of X Years: Year 3	Goal Type: Process Goal

Priority Health Need: Chronic Disease Program Name: YMCA Haverhill Cornerstone Program Health Issue: Chronic Disease		
Brief Description or Objective	YMCA’s Cornerstone Program is a collaborative program providing essential daily living support to cancer patients, cancer survivors, and their families. The program provides a membership to the Y for people diagnosed within the past five years, access to specialized programs to help those with cancer and recovering from cancer, special drop-in babysitting for parents who are currently in treatment, weeks of summer camp is offered for families who have been affected by cancer and the program provides an overall sense of community to support survivorship.	
Program Type	<input type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Infrastructure to Support Community Benefits <input checked="" type="checkbox"/> Total Population or Community Wide Intervention	
Program Goal(s)	Support programs and resources that promote survivorship for people impacted by cancer	
Goal Status	<ul style="list-style-type: none"> • The Haverhill YMCA extended 45 Cornerstone memberships during the pandemic to support healthy living to families dealing with cancer. • The Haverhill YMCA provided 10 Cornerstone families with a week of summer camp in 2021, providing a sense of normalcy. 	
Program Year: Year 1	Of X Years: Year 2	Goal Type: Process Goal

Priority Health Need: Chronic Disease Program Name: YWCA Newburyport “Encore” Program Health Issue: Chronic Disease	
Brief Description or Objective	Encore is a free 12-week program offered to any “thrivor” who has experienced cancer at any time in their lives, which has served hundreds of women in our community. The YWCA Encore program is designed to empower women to reclaim their physical and emotional health and well-being after a cancer diagnosis and treatment.
Program Type	<input type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Infrastructure to Support Community Benefits <input checked="" type="checkbox"/> Total Population or Community Wide Intervention

Program Goal(s)	Support programs and resources that promote survivorship for people impacted by cancer	
Goal Status	<p>Due to COVID-19 and the high-risk population served, people served were drastically reduced this year, working with approximately 20+/- people intermittently as their schedule/health permits.</p> <p>The YWCA also continued to collaborate with the Tough Warrior Princesses making the "Warrior Chat" free support group program available.</p>

Social Determinants of Health (Food, Housing, Access)

- Emmaus' Mitch's Place Shelter
- Essex County Asset Builder Network, Translation Services
- Interpreter Services
- Link House's Women's Independent Sober Housing
- Our Neighbors' Table Wednesday Meals
- Newbury Food Pantry
- Nourishing the Northshore
- Patient Financial Counseling
- Transportation Services
- YWCA Roof Over Head

<p>Priority Health Need: Social Determinants of Health Program Name: Emmaus' Mitch's Place Shelter Health Issue: Housing/Homelessness</p>	
Brief Description or Objective	<p>Emmaus serves homeless adults in the Greater Haverhill area through Mitch's Place emergency shelter. Mitch's Place is the primary point of entry for homeless individuals into an integrated network of services under one roof. Mitch's Place provides overnight shelter, nutritious meals, and needed support services year-round, including during extreme conditions, to homeless men and women who may otherwise spend the night engaging in high-risk, self-destructive, and/or illegal activities. The program also offers case management to support accessing needed services and job opportunities.</p> <p>AJH supported Mitch's Place during COVID-19 to ensure that safety measures were in place to keep patrons safe during the pandemic.</p>

Program Type	<input type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Community Clinical Linkages <input checked="" type="checkbox"/> Total Population or Community Wide Intervention <input type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Infrastructure to Support Community Benefits			
Program Goal(s)	Increase housing stability for those at risk for eviction or homelessness			
Goal Status	<p>Emmaus served 119 individuals in FY21. During that time, the shelter was open 24-hours a day to try to minimize the spread of COVID-19, thus turnover in the shelter was much lower than it is during a normal year. Emmaus also prioritized moving homeless individuals into their own apartments directly from the street whenever possible instead of entering shelter to minimize the transmission of the virus.</p> <p>Since returning to normal operating hours in June 2021, for the first six months of FY22 (July 1-Dec. 31), Emmaus has served 122 unique individuals, which shows a marked increase of people seeking services as this pandemic continues on. At this rate, Emmaus expects to serve approximately 250 different individuals during FY22 fiscal year, bringing Emmaus close to our FY20 number (267).</p>			
<table border="1" style="width: 100%;"> <tr> <td style="width: 33%;">Program Year: Year 2</td> <td style="width: 33%;">Of X Years: Year 3</td> <td style="width: 33%;">Goal Type: Process Goal</td> </tr> </table>		Program Year: Year 2	Of X Years: Year 3	Goal Type: Process Goal

<p>Priority Health Need: Social Determinants of Health Program Name: Essex County Asset Builder Network, Translation Services Health Issue: Additional Health Need (Access to Care)</p>	
Brief Description or Objective	The Essex County Asset Builder (ECAB) Network creates regional connections and supports for individuals and families from Amesbury, Georgetown, Newbury, Rowley, Salisbury and Newburyport. In order to ensure equity and access to community services, including healthcare, social services, and family and youth prevention services/programming, phone or video translation services are needed. Translation services for our Portuguese and Spanish speaking families will allow us to better communicate with families in order to provide helpful, accurate, and timely information, community referrals, and support.
Program Type	<input type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Total Population or Community Wide Intervention <input checked="" type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Infrastructure to Support Community Benefits
Program Goal(s)	Increase access to translation services for families in Greater Newburyport to better communicate to provide helpful, accurate, and timely information, community referrals, and support.
Goal Status	Work with 32 families in the community who speak either Portuguese or Spanish as their primary language in social services and community support work

	<p>Families with children have represented the greatest increase in attendance and have highlighted some positive programmatic changes resulting from the pandemic. Anonymity and the convenience of a grab-and-go, family-sized dinner is a draw for families who don't have adequate food at home nor the time or ability to prepare dinner while juggling parenting, homeschooling, and work. AJH's support was focused on the needs related to offering meals to-go on a weekly basis, year-round.</p>	
Program Type	<input type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Community Clinical Linkages <input checked="" type="checkbox"/> Total Population or Community Wide Intervention	<input type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Infrastructure to Support Community Benefits
Program Goal(s)	Increase access to low-cost healthy foods for AJH priority cohorts	
Goal Status	Support provided by AJH sponsored six weeks' worth of meals for ONT guests, serving a total of 10,269 meals to 6,903 adults and 775 children. Approximately 82% are returning guests each week.	
Program Year: Year 2	Of X Years: Year 3	Goal Type: Process Goal

<p>Priority Health Need: Social Determinants of Health Program Name: Newbury Food Pantry Health Issue: Additional Health Needs (Food Access)</p>		
Brief Description or Objective	<p>One of every 10 neighbors in Newbury Food Pantry's service area do not have a reliable source of healthy food, according to the Greater Boston Food Bank. The First Parish Newbury Food Pantry supports neighbors in need, including residents of Newburyport, Salisbury, and other surrounding towns with free food donations every Friday, typically serving between 250 and 300 people through deliveries or food pickup.</p>	
Program Type	<input type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Community Clinical Linkages <input checked="" type="checkbox"/> Total Population or Community Wide Intervention	<input type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Infrastructure to Support Community Benefits
Program Goal(s)	Increase access to low-cost healthy foods for AJH priority cohorts	
Goal Status	Served over 10,200 guests in 2020-2021 and delivered 60% of orders to seniors and others lacking transportation. Nearly 50% of guests reside in Newburyport, 26% in Newbury and the others in surrounding towns. 51% of guests are seniors	

	patients to Financial Coordinators to assist patients with applications for Medicaid or disability; they work with primary care physicians or free clinics to Ensure medical follow-up, and extend referrals to other needs.	
Program Type	<input type="checkbox"/> Direct Clinical Services <input checked="" type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Infrastructure to Support <input type="checkbox"/> Total Population or Community Wide Community Benefits Intervention	
Program Goal(s)	Increase access to transportation support or provide transportation reimbursement to patients who are uninsured or have limited resources	
Goal Status	AJH distributed \$7,233.25 of emergency funds to patients in FY21.	
Program Year: Year 2	Of X Years: Year 3	Goal Type: Process Goal

Priority Health Need: Social Determinants of Health Program Name: YWCA ROOF Over Head Collaborative Health Issue: Housing/Homelessness		
Brief Description or Objective	YWCA’s ROOF Over Head Collaborative rental housing for low-income working families with dependent children from Amesbury, Newburyport and Salisbury. Case managers assist families to move toward permanent housing. Eligible families must be from and homeless or at-risk of becoming homeless.	
Program Type	<input type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Access/Coverage Supports <input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Infrastructure to Support <input checked="" type="checkbox"/> Total Population or Community Wide Community Benefits Intervention	
Program Goal(s)	Increase housing stability for those at risk for eviction or homelessness	
Goal Status	Case managers supported four households facing homelessness (total of 8 individuals) to retain their housing for one year by helping households apply for and receive state rental assistance and by helping them manage stress during the pandemic.	
Program Year: Year 1	Of X Years: Year 2	Goal Type: Process Goal

Anna Jaques Hospital

Community Benefits & Community Relations

25 Highland Avenue

Newburyport, MA 01950

Office: 978-463-1475

Email: ksullivan@ajh.org

SECTION VII: HOSPITAL SELF-ASSESSMENT FORM

Hospital Self-Assessment Update Form – Years 2 and 3

Note: This form is to be completed in the two Fiscal Years following the hospital’s completion of its triennial Community Health Needs Assessment

I. Community Benefits Process:

- Has there been any change in composition or leadership of the Community Benefits Advisory Committee in the past year? Yes No

If so, please list updates:

Anna Jaques Hospital (AJH) has worked to align its Community Benefits Advisory Committee (CBAC) membership to reflect the demographics included in AJH’s Community Benefits Service Area (CBSA). Additionally, AJH has worked to have its CBAC membership include the following sectors: local public health department; municipal staff; education; housing/community development; social service agencies; regional planning/transportation; private sector; and community-based organizations. AJH welcomed new CBAC members with: **Michelle Braiser**, BILH Primary Care – Haverhill, Practice Manager; **Lou Masiello**, Merrimack Valley Planning Commission – Salisbury (regional planning/transportation); and **Jean Trim**, Vigilant Capital Management (private sector) & AJH Board of Trustee Member.

II. Community Engagement:

- If there have been any updates to the key partners with whom the hospital collaborates, please indicate in the table below. Please feel free to add rows as needed.

Organization	Name and Title of Key Contact	Organization Focus Area	Brief Description of Engagement
Emmaus, Inc.	Jeanine Murphy Executive Director	Housing organizations	AJH strengthened its partnership with Emmaus through “Mitch’s Place Emergency Shelter” that serves adults impacted by homelessness in the Greater Haverhill area and experienced a significant increase in need during the pandemic. AJH supported unexpected financial burdens to ensure that state safety measures related to COVID-19 were in place to keep patrons safe during the pandemic.
Essex County Outreach	Officer Dani Sinclair	Behavioral health and mental health organizations	AJH formalized a new partnership with Essex County Outreach to directly support its efforts of community

			educational and awareness around substance use disorder, mental/behavioral health to access to necessary services related to substance use, mental or behavioral health needs and access.
YMCA Haverhill	Tracy Fuller, Executive Director	Social service organization	The COVID-19 pandemic placed a heavy burden on immunocompromised patients, including those impacted by cancer. AJH's shifted its annual support of the YMCA Haverhill to its Cornerstone program, a collaborative health & wellness program providing essential daily living support to cancer patients, cancer survivors, and their immediate families.

- Please use the spectrum below from the Massachusetts Department of Public Health¹ to assess the hospital's level of engagement with the community in implementing its plan to address the significant needs documented in its CHNA, and the effectiveness of its community engagement process.

Category	Level of Engagement	Did Engagement Meet Hospital's Goals?	Goal(s) for Engagement in Upcoming Year(s)
Overall engagement in developing and implementing filer's plan to address significant needs documented in CHNA	Involve	Yes	Collaborate
Determining allocation of hospital Community Benefits resources/selecting Community Benefits programs	Consult	Yes	Consult

¹ "Community Engagement Standards for Community Health Planning Guideline," Massachusetts Department of Public Health, available at: <http://www.mass.gov/eohhs/docs/dph/quality/don/guidelines-community-engagement.pdf>. For a full description of the community engagement spectrum, see page 11 of the Attorney General's Community Benefits Guidelines for Non-profit Hospitals.

Implementing Community Benefits programs	Collaborate	Yes	Collaborate
Evaluating progress in executing Implementation Strategy	Collaborate	Yes	Collaborate
Updating Implementation Strategy annually	Consult	Yes	Collaborate

- For categories where community engagement did not meet the hospital’s goal(s), please provide specific examples of planned improvement for next year:

Anna Jaques Hospital (AJH) remains committed to community engagement. During FY22, AJH will undertake its triennial community health needs assessment and prioritization process. Guided by AJH’s Community Benefits Advisory Committee and conducted in collaboration with community partners, this initiative’s guiding principles include community engagement, equity, collaboration and capacity building. In FY22, AJH will continue to work with its CBAC and community partners to engage the community including holding an annual public meeting. Additionally, AJH will engage with our community by:

- Conducting focus groups comprised of harder to reach populations including youth, people who utilize social service offerings, and people in recovery of substance use disorder
- Collaborate with community partners to encourage participation in the hospital’s Community Health Needs Assessment including: partnering with food banks to distribute surveys and information, presenting at events and meetings, and attending coalition meetings
- Host Community Listening Sessions

- COVID Question: Please describe how the COVID-19 pandemic impacted the hospital’s process for engaging its community and developing responsive Community Benefits programming.

For the FY21 reporting year, AJH dedicated a great deal of time and resources at the local level in response to the COVID-19 global pandemic. AJH was intentional when assessing risk factors within our CBSA and worked closely with our local health department(s). Clinical staff provided infection control expertise to local health

departments during their reopening plans. AJH worked with BILH as a system to develop and distribute written materials (in nine languages) to the communities most impacted by COVID-19, to help slow the spread. AJH redeployed staff and procured tangible necessities for both the community at large and hospital staff, such as personal protective equipment (PPE), food, hand sanitizer, and other critical items. Additionally, working with BILH, AJH opened a vaccination site in our community to vaccinate thousands of individuals including those disproportionately impacted by the pandemic.

While in-person meetings were hindered in the community, AJH sought creative ways of engaging with our community, including:

- Cancer Center staff partnered with North of Boston Cancer Resource to host Zoom education and support sessions throughout the year;
- AJH supported area food pantries shift to offer to-go meals to patrons
- Identified new partnerships with social service agencies in our CBSA that are directly working in our communities, including Essex County Outreach focused on providing resources and supports to people impacted by substance use disorder and mental or behavioral health.

Many of the programs highlighted in this report had to be modified significantly due to COVID-19 and related safety guidelines. In some cases, programs were expanded. In others, programs were cut or significantly reduced because of the pandemic.

- Did the hospital hold a meeting open to the public (either independently or in conjunction with its CBAC or a community partner) at least once in the last year to solicit community feedback on its Community Benefits programs? If so, please provide the date and location of the event. If not, please explain why not.

AJH held a public meeting in conjunction with its CBAC on September 29, 2021. Additionally, AJH shared highlights of its Community Benefits program at meetings throughout its CBSA when engaging with the community during the triannual CHNA.

III. Updates on Regional Collaboration:

1. If the hospital reported on a collaboration in its **Year 1 Hospital Self-Assessment**, please briefly describe any updates to that collaboration, including any progress made and/or challenges encountered in achieving the goals of the collaboration.

AJH is part of the Beth Israel Lahey Health (BILH) system community health planning process. In 2019, BILH formed a system-wide Community Benefits Committee (CBC). This Committee provides strategic direction for all 10 BILH hospitals and its affiliates and seeks to ensure that strategies are in place to meet the health care needs of at-risk, underserved,

uninsured, and government payer patient populations in the communities. Guided by the CBC, hospitals' Community Benefits staff meet regularly to review regulatory requirements and share community health programming best practices. Together, hospitals are identifying efficient ways to share information, address health needs, and identify common indicators to measure programmatic impact.

As a system, BILH came together to meet the needs of patients hospitalized with COVID. In addition to treating the critically ill, BILH hospitals collaborated with one another and with many community organizations on supply and resource distribution. All BILH hospitals reacted to urgent and unforeseen needs by restructuring/realigning Community Benefits programs to meet emerging and ongoing issues and challenges related to the pandemic.

2. If the hospital entered a regional collaboration in the past year, please provide the information requested of regional collaborations on p. 5 in the **Year 1 Hospital Self-Assessment Form**.
