As my first year as Chairman of the Board comes to a close, the entire nation is struggling with the implementation of health care reform. As we work through these challenges on a local level, Anna Jaques remains a strong, independent, locally governed organization poised for success under the new models of care delivery and payment reform.

The hospital established a strategic plan in 2007 that included specific goals and strategies that would ensure high-quality patient care and safety, and a superior patient experience. Five years later, what were once renderings on paper and ambitious targets on graphs have come to life in the form of renovated facilities, new services, and measurable quality improvements. These major achievements are the result of a tireless commitment at all levels of the organization to bettering the hospital experience for our patients.

Fiscal year 2013 proved to be another solid year of performance. In addition to the patient and family experience, which must always be at the center of what we do, we remain focused on expense control and operational efficiencies as our reputation in the community continues to strengthen. Anna Jaques ended the year with a gain from operations of $1,753,000 and increased the total number of inpatients and outpatients served by more than 2%.

The Board met with hospital administration over the summer to update our strategic plan and define our vision for the next five years. With a vision of becoming the most respected hospital in the region, we are once again raising the bar for ourselves and our patients. For this goal to become a reality we must continue to improve our image, work in alignment with the medical staff to keep more patients local for their care, and maximize our clinical affiliation with Beth Israel Deaconess Medical Center to deliver the right care in the most appropriate setting.

Thank you for your ongoing support as we work to improve our community’s health and well-being.

David J. LaFlamme
Chairman of the Board of Trustees
Several long-term goals and projects came to pass in 2013, thanks to our capable employees, physicians, boards and committee members. They work hard to make Anna Jaques a place about which they, and their friends, can say, “You get really good care there.”

The opening of the Virginia A. Capolupo Outpatient Entrance completed the implementation of the Master Facility Plan, made possible by the $6.5 million in Capital Campaign funding that was donated by this community. We established the Gerrish Breast Care Center, expanded maternal-fetal medicine services for high-risk pregnancies, and strengthened and expanded the clinical affiliation with our tertiary partner, Beth Israel Deaconess Medical Center.

Our diligence around improving our performance on quality measures led to recognition by a national health analytics company for being ranked in the top 20th percentile of medium-sized community hospitals nationwide. On a regional level, Anna Jaques was ranked No. 1 for performance and the most improved institution over a five-year period among all 35 hospitals in the Yankee Alliance group purchasing organization.

Looking ahead, we will continue to focus on values and data as we examine, in alliance with the medical staff and our tertiary partner, Beth Israel Deaconess Medical Center, what is best for the patient and society as a whole.

Virginia A. Capolupo Outpatient Entrance

Dedication on September 6, 2013
**Successful Capital Campaign Supports Completion of the AJH Master Facility Plan**

In 2012 the hospital’s largest capital campaign came to a close with great success, exceeding our goal and raising $6.5 million. These funds were allocated to three major projects totaling $15.8 million in hospital renovations and expansion.

The first two capital projects were completed in 2012. The replacement of the aged power plant for the Zampell Power Plant (named for Jim and Christine Zampell) saves 15% in energy use and reduces the hospital’s carbon footprint. The addition of the Institution for Savings Inpatient Unit, an 18-bed, single occupancy unit, transformed Anna Jaques into a primarily all-private room hospital. Now, 97% of all inpatients get a single, at no additional cost to the patient or insurance company.

The third and final project, the Virginia A. Capolupo Outpatient Entrance, was completed this summer. Removal of the old power plant and trash dock made way for this beautiful new entrance to the basement level. Patients, visitors and employees now have an attractive entry across a newly-landscaped space to a welcoming reception desk and waiting area with artwork by local artists Alan Bull, Karen Lynch and Lance Hidy.
Dr. Peter Hartmann, Medical Director and dedicated breast surgeon, brings nearly 25 years of experience to this role, having performed 1,000 breast procedures in his career.
Gerrish Breast Care Center Opens to the Community

Named in honor of a major donation from the Gerrish Family Foundation, the Gerrish Breast Care Center opened officially in October 2013. Located in the Newburyport Medical Center, the Center brings together medical professionals and resources across specialties to ensure the highest standard of care and seamless coordination of services.

Led by Peter Hartmann, MD, FACS, the Center offers a new approach to breast care in our area, offering comprehensive services from prevention through treatment.

- Using advanced diagnostic tools, each patient’s personal risk for developing breast cancer in her lifetime is assessed. This helps guide the decision about which diagnostic testing is most appropriate for each patient.

- The Center’s affiliation with Beth Israel Deaconess Medical Center (BIDMC) means specialists from BIDMC are part of the care team to provide a tertiary perspective and participate in treatment planning. They provide a second opinion if the patient would like one.

- All patients whose findings suggest they may have breast disease get a fast, accurate diagnosis with test results provided in two days. When necessary, a full evaluation and treatment plan is developed by the multidisciplinary team of experts, working with the patient, and as indicated, with the BIDMC specialists, within 7-10 days of initial screening.

- A dedicated Patient Navigator guides and supports patients and their families every step of the way. She helps schedule appointments, educate patients, and connect them to key resources, while also providing emotional support.

“These rankings quantify what our patients already know. Anna Jaques has made significant gains in delivering measurably high quality patient care, and remains committed to continuous improvement,” said Dr. Gail Fayre, Chief Medical Officer.
Quality Improvement Puts Anna Jaques in Top 20 Percent of Hospitals Nationwide

AJH's commitment to quality care was recognized by a national health analytics company that conducts an annual hospital benchmarking study with thousands of hospitals around the country. After reviewing quality in nine different areas of patient care, the study showed that AJH is in the top 20 percent of medium-sized community hospitals nationwide, having performed better than 82 percent of similar hospitals.

Additionally, Anna Jaques is also a member of the Yankee Alliance, a network of 35 community-based hospitals in New England that share best practices and innovations. The study also found Anna Jaques to be number No. 1 for performance and the most improved over a five-year period of all Yankee Alliance hospitals.

Key quality metrics achieved this year:

- Flu vaccination rate 97%
- C-section infection rate at zero
- All-cause readmission rate at 12% vs. national rate of 16%
- Use of red blood cells decreased from 0.14 to .07 per adjusted discharge
- Heart attack patients given aspirin at discharge at 100%
- Surgery patients given antibiotic at right time to prevent infection at 100%
- Surgery patients given right kind of antibiotic to prevent infection at 100%
- Heart failure patients given an evaluation of left ventricular systolic (LVS) function at 100%
- Pneumonia care measures both at 98% and above MA and U.S. averages
- Surgical site infection rate for elective hip and knee surgeries at less than 1%, with a goal of zero by 2014
A high-risk pregnancy requires more specialized care for you and your baby.

Our clinical affiliation means that Dr. Karen E. O’Brien, maternal and fetal medicine specialist from Beth Israel Deaconess Medical Center, now sees patients on site at Anna Jaques alongside Dr. Rebecca Lynn Boyer, OB/GYN, and her colleagues at Women’s Health Care. Together, these physicians provide the advanced care you need throughout your pregnancy.

For healthy deliveries, look for world-class care that starts and ends close to home.

We’re here if you need us.
Rebecca Lynn Boyer, MD
OB/GYN
Anna Jaques Hospital

And so are we.
Karen E. O’Brien, MD
Maternal-Fetal Medicine Specialist
Beth Israel Deaconess Medical Center

Our co-branded advertising campaign highlights the collaboration between the hospitals to bring more specialized care to the community.
Women’s Health Care Expansion Leads to Growth

Women’s Health Care has had a banner year, with its busy new office in Georgetown, new office space in Newburyport, 15 practitioners to choose from, and Harvard Medical Faculty physicians in gynecologic oncology and maternal-fetal-medicine seeing patients locally through the hospital’s affiliation with Beth Israel Deaconess Medical Center.

These exciting changes and WHC’s patient-focused approach led to an 8.5% increase in deliveries in FY13 and improvement in patient satisfaction.

The practice now has its own website, www.whcobgyn.org, with a modern, trendy look and easy-to-navigate layout. The site is full of educational tools and features, including an ovulation calculator, downloadable patient forms, and a wealth of resources for expectant mothers.

A comprehensive marketing campaign was launched in 2013 to reposition WHC in the community and promote these positive changes, particularly in the Haverhill and southern New Hampshire markets. One of the advertisements (pictured right) featured a beautiful newborn baby, Austin M., who was the winner of the AJH Baby Photo Contest which ran last May. Austin, who was born at AJH on April 30, 2013, was selected from 62 photo entries. Thanks to social media, the word-of-mouth about the contest and the ad campaign took off well before the ad debuted in mid-June.

Women’s Health Care’s affiliation with Anna Jaques Birth Center and Neonatal Care Center gives you all private rooms, many delivery options, and 24/7 access to anesthesiologists and neonatologists. The Birth Center is ranked in the top 10% in the state for patient satisfaction. For women who need high-risk pregnancy care, a maternal-fetal medicine specialist from Beth Israel Deaconess Medical Center now sees patients right in our community.
AJH Received Several Quality Recognitions and Re-accreditations in 2013

Feb-July 2013 Measures above 90th percentile

- Friendliness/courtesy of nurses ........................................91
- Nurses’ attitude towards requests ........................................90
- Attention to special/personal needs ........................................92
- Nurses kept you informed ......................................................94
- Accommodations & comfort of visitors ....................................92
- Staff addressed emotional needs .............................................92
- Staff includes you in decisions re: treatment .........................91
- Friendliness/courtesy of Birth Center .......................................90
- Birth Center staff kept you informed ......................................99
- Staff concern for progress/baby ............................................94
- Birth Center nurses’ promptness to call .................................99
Improving the Patient Experience

In February 2013, Anna Jaques began working with a consultant who specializes in helping hospitals improve their HCAHPS (Hospital Consumer Assessment of Healthcare Providers and Systems) scores. HCAHPS (pronounced “H-Caps”) is a national, standardized, publicly reported survey that measures the inpatients’ perspectives of hospital care. HCAHPS scores not only reflect how our patients feel about their hospital experience but are also now tied to the hospital’s reimbursement for care.

Our overall goal as a hospital is to have our HCAHPS scores at or above the 90th percentile (better than 90% of fellow hospitals). All departments that have direct contact with the patient – from nursing to respiratory to food and environmental services – have been working on several initiatives this year, including:

- Hourly rounding
- Leadership rounding (the Director walks around the unit and visits patients)
- Increased use of white boards to communicate with patients and with each other
- Discharge processes (earlier in the day, more complete)
- Room temperature
- Improved patient involvement

Thanks to the staff’s hard work and commitment, inpatient satisfaction scores improved significantly in the months following the implementation of these initiatives, with some measures rising into the high-80th and 90th percentiles. Over a six month period between February and July of 2013, the categories of likelihood to recommend the hospital (84th percentile), nursing-related questions (91st percentile), and staff concern for visitors and family (89th percentile) approached or met our goal of being in the 90th percentile in Massachusetts, highly competitive market for patient satisfaction.

Increased focus is being given to areas that are traditionally harder to improve upon, including reducing noise at night, expediting the discharge process, and enhancing the communication with physicians. “Hardwiring” our processes throughout the organization will be the key to sustaining the highest level of patient satisfaction.
Amesbury’s Cashman Elementary School students (pictured) and Haverhill Elementary Schools received an AJH Healthy Recipes cookbook sponsored by Amesbury Health Care Charitable Trust and TD Bank Charitable Foundation.
Community Impact

Under the guidance of the newly formed Community Benefits Advisory Council, Anna Jaques supports the most pressing health needs of our community. The hospital focuses on four chronic disease priorities, including obesity, diabetes, cancer awareness and prevention, and cardiovascular disease. Through a variety of educational and awareness initiatives, many of which are centered on improved nutrition and exercise, Anna Jaques strives to take an active role in keeping our community healthier. Some examples this year include:

• Field Day at Cashman Elementary in Amesbury
• School Nutrition Month - Fruit and Veggie Challenge
• “How far can you go?” pedometer program for school children
• “Meet the Specialist” seminar series
• Health fair participation and local event sponsorship
• Newburyport Farmers’ Market
• Cancer Screenings and Support Groups
• Teddy Bear Clinics

Community Benefits Advisory Council Members:

Letter from Foundation Chair - Ginny Eramo

Anna Jaques Hospital was founded by a donor intent on helping others. Miss Jaques’ 1880s intention of caring for local citizens who were sick and in need resonates today in every patient room, diagnostic department, medical practice, administrative and support department, and the well-used café where many gather each day.

In every age, there are people — people like you — whose generosity and foresight become the foundation that future generations depend on and build upon. Maya Angelou said, “When we give cheerfully and accept gratefully, everyone is blessed.” In just this past year, donors gave over $1.3 million to the Annual Fund, and another $2 million to the capital campaign. Your gifts honor and remember loved ones, sponsor Born@AJH, and show appreciation and connection to AJH demonstrated by bricks in the commemorative walkway.

Your gifts helped to train new nurses, hire a patient navigator for patients with breast disease, and help provide the $3 million needed annually to acquire new equipment and technology and replace the old. You may have given, like the AJH Aid Association did, to seed the campaign to renovate our 12 Birth Center patient rooms or joined the Gerrish family in supporting those fighting breast cancer with a gift to establish the new Gerrish Breast Care Center.

I am honored to work with you as part of the caring community that has taken Miss Anna Jaques’ intention and developed it into an institution we, and those who come after us, can depend on. In big and small ways, your generosity helps change lives every day.

Thank you.

Ginny Eramo
Chair, Anna Jaques Community Health Foundation
Anna Jaques Community Health Foundation
For more than 125 years, the AJH Aid Association has raised money in support of Anna Jaques Hospital. This year, under the energetic leadership of President Mary Zerigian, the Aid Association gave its largest gift ever to AJH in the amount of $108,000.

At its October Annual Meeting, President Zerigian reported that the largest sources of income came from the well managed AJH Gift Shop, the signature 25th Great Chefs’ Night event, the ever-popular “Tree of Light”, and sales of art from the Aid’s revolving community artist gallery along the main floor wall.

The Aid is delighted to support the following projects:
- Gerrish Breast Care Center
- Birth Center patient room upgrades
- Patient care coordination software
- Two new Sapphire portable surgeon headlights
- Psychiatric patient visitor room

Anna Jaques is grateful for the tremendous efforts of the Aid Association volunteers and to those who participate in their various fundraising activities.
Your Hospital: The Campaign for Anna Jaques

Bill Plante, Jr. is a journalist and the former long-time editor of the Newburyport Daily News. His 40-year association with AJH started when he brought his young wife from Virginia to meet his father who had not been able to make the wedding. She developed appendicitis, and it ruptured. Two doctors operated, saving her life. She spent a month at Anna Jaques recovering.

The hospital stands on ground Bill’s grandfather once farmed. When Bill’s elderly father was in the ICU, he told a nurse he used to pick tobacco under “this very bed,” leading to her assessment that he must be hallucinating.

“I have long supported this hospital. It is important to me that today most of our health needs can be taken care of here without the need to go to Boston for everything,” shared Bill.

Kathy Connors, pictured here with Robin DeMerritt, another Anna Jaques Corporator, along with Kathy’s husband, Bob (not pictured), opened their Plum Island home to thank donors to Anna Jaques who had given to help establish the new Gerrish Breast Care Center. They and Jacalyn Bennett each hosted parties that together encouraged gifts of over $50,000 for the Center.
Dorothy “Dot” Phillips gave a major gift to the Birth Center Patient Room Renovation (slated to start in 2014). She has always been well taken care of at the hospital—and she goes way back with Anna Jaques. She and her brother Arnold Lessard were both born at Anna Jaques.

Janice “Jan” Zinck has been an AJH nurse since 1976. For the past 33 years she has been a nursing supervisor on the 3rd shift. Her four children were all born here and to Jan, AJH is like family. Jan gives weekly to both the Annual Fund and Capital Campaign through a payroll deduction. She is one of eleven employee donors in the annual fund leadership circle.

As Mirra Co., Inc. of Georgetown was about to celebrate its 60th birthday, the Mirra family decided to make a generous gift to Anna Jaques, where many members of the family had been born. They named the Family Nourishment Area in the new Institution for Savings Unit and gave a major gift to the Annual Fund at the same time.
Donna and Keith Attenborough are long-time supporters of Anna Jaques. In 2013, they decided to change their approach to philanthropy by giving larger gifts to fewer organizations. Their gift to the Gerrish Breast Care Center was made in memory of Keith’s sister, Kay Fox, who passed away three years ago from complications of cancer.
Annemargaret Connolly and her husband Ken Frank of Washington, DC, and Salisbury Beach, and Annemargaret’s mother, Elizabeth of Salisbury, could not have been more pleased with the amazing care her father, Edward D. Connolly received in the Oncology Clinic during his life ending illness, and the compassion and understanding they received from Dr. Paul Spieler and the infusion clinic nurses. Looking for a way to honor Ed, a proud Irish-American, and thank those who provided care and comfort to not only Ed, but their family, Annemargaret and Ken provide a festive St. Patrick’s Day spread for Oncology Clinic patients and staff every March 17th. Their experiences with the doctors, nurses and staff at AJH has led them to make numerous other contributions to the hospital, including an infusion room, the Emergency Department registration area, and periodic donations to special projects.

In recognition of a major gift of $100,000 to the hospital’s Capital Campaign and Annual Fund from Chase and Lunt Insurance Agency in Newburyport, Anna Jaques last summer opened the Chase and Lunt Terrace. Employees and visitors alike may now enjoy outdoor seating in a lovely garden with a well-liked fountain adjacent to the AJH cafeteria. The Howlett family (President of Chase and Lunt) have long been supporters of the hospital.

Pictured from left to right: Mark Bailey, Vice President, Leslie Howlett, Administration, her husband Jay Howlett, President
Dr. Daniel Appleton and Dr. Kevin Gasiorowski of Appleton Eye Associates have been longtime supporters of Anna Jaques Hospital. A fixture at the annual Fore Your Health Golf Tournament, Appleton Eye Associates in 2013 sponsored the player gift, Oakley sunglasses for every golfer.
Our 200+ volunteers make a huge difference at Anna Jaques. You can find them greeting visitors, working in the gift shop, transporting patients, delivering mail, and helping out at hospital events.

Pictured from left to right: Beverly Cronin, Doris Brown and Irene Geisler at the 2013 Volunteer Appreciation Dinner.

Ginny Eramo has a long association with Anna Jaques Hospital. Ginny came to the area when she married Tom Eramo. She started her business, Interlocks Salon, in Newburyport soon after their daughter Jordan was born. Both Jordan and Eric were born at Anna Jaques. Since becoming part of the community, Ginny has organized events and raised funds for numerous community charities including the hospital. In 2013, she was named chair of the AJH Community Health Foundation.

Jordan and Eric Eramo (with mother, Ginny Eramo, in the middle) were both born at Anna Jaques. They joined 300 others at the 2013 Born@AJH event where everyone was treated to a double rainbow over the historic front entrance.

23rd Annual “Fore Your Health” Golf Tournament

Thank you to all of our sponsors, golfers, volunteers and committee members for making the 2013 “Fore Your Health” Golf Tournament a huge success. The tournament, held at Ferncroft Country Club, raised over $138,000 to help establish the Gerrish Breast Care Center at Anna Jaques Hospital. Chairman Byron Matthews led the event for the 23rd year, this year ably assisted by his committee: Kirsten Arnold, Steve DeGuglielmo, Rich Doolan, Luis Fernandez, Dr. Kevin Gasiorowski, Marshal Tom Howard, Rob Kotarba, John Matthews, Peter Matthews, Mac McKay, Donna Twombly and Marylou Welch.

Save the Date

The 2014 golf outing will be held on August 18, 2014 at Renaissance Golf Club in Haverhill, MA.

This year, Curt Gerrish and his family made an extraordinary gift to name the Gerrish Breast Care Center at Anna Jaques Hospital. With this gift, The Gerrish Family Foundation’s cumulative giving to the hospital has exceeded $1 million.

Targeted investments from the Gerrish family have continued to make Anna Jaques the well-equipped and modern facility that it is today. The Gerrish Breast Care Center will allow every patient with breast disease to experience expert and fast medical care in the comfort and convenience of their local community with the support of super-specialists from Beth Israel Deaconess Medical Center. The family has also given to establish the Gerrish Fast Track in the Emergency Department and named the Gerrish Family Foundation Emergency Department as part of the recent capital campaign, as well as gifts since 1986 to support new technologies in the operating room, radiology, and surgical services to name a few.

The commitment of the Gerrish Family Foundation to Anna Jaques Hospital and the Gerrish Breast Care Center has created a legacy of support for our patients. The Gerrish Family consistently demonstrates what the hospital and its mission means to them.
